Subject: MCC 2-156-080, adjustment application

Richard, thank you for returning my call yesterday.

As we discussed, a friend of mine, Alex Cross, submitted an application to the Department of Business Affairs and Consumer Protection requesting permission to lease a condominium we own together as a shared housing unit. Alex submitted an application requesting an "adjustment" that would allow the unit to be leased as a shared housing unit. I own 50% of the condominium, so I would be receiving a portion of any profits from the use if permission is granted. If you happen to need any additional information, please let me know. Thanks in advance.
